

SA 3772.

Mr. SCHUMER submitted an amendment intended to be proposed by him to the bill S. 3217, to promote the financial stability of the United States by improving accountability and transparency in the financial system, to end "too big to fail", to protect the American taxpayer by ending bailouts, to protect consumers from abusive financial services practices, and for other purposes, which was ordered to lie on the table; as follows:

At the end of title X, add the following:

Subtitle I--Financial Consumers Association

SEC. 1121. SHORT TITLE.

This subtitle may be cited as the "Financial Consumers Association Act of 2010".

SEC. 1122. FINDINGS AND PURPOSES.

(a) Findings.--Congress finds that--

(1) financial services consumers and depositors are an integral part of the financial system and are affected by the safety and soundness of the financial industry;

(2) deceptive, illegal, and speculative financial practices have harmed public confidence in the integrity and fairness of many United States financial institutions, and threaten the basic strengths of the United States economic system;

(3) contributing to the loss of public confidence are perceptions of inadequate oversight and insufficient independence between financial institutions and their regulators;

(4) major factors contributing to the recent financial crisis include regulatory failures to adequately police the financial services markets for crime, unfair or deceptive practices, fraud, lack of transparency, and mismanagement;

(5) the financial industry has enjoyed virtually unlimited access to represent its interest before Congress, the courts, and State and Federal regulators, while financial services consumers have had limited representation before Congress and financial regulatory entities;

(6) the resources available for organized representation of consumers in the financial industry need to be expanded so citizens can better monitor the performance of State and Federal agencies that regulate their financial institutions and participate in public policy debates regarding the oversight of these financial institutions;

(7) the creation of a public purpose, democratically controlled, self-funded, nationwide

membership association of financial services consumers is an effective way to enhance the representation of consumers in the financial services industry and to meet the expanding information needs of consumers in the financial services market;

(8) the requirement that informational and statutory inserts be included in the paper mailings and email correspondence, digital or other electronic means, of covered persons is essential to the creation, maintenance, and funding of such an association;

(9) the Federal Government has a substantial interest in the creation of a public purpose, democratically controlled, self-funded, nationwide membership association of financial services consumers to enhance their representation and to effectively combat unsound financial practices;

(10) the creation of such an Association is not meant to substitute for, but augment, the activities of existing or future regulatory bodies whose sole or partial focus is the protection of financial services consumers; and

(11) consumers have more complex financial choices today than ever before, but not enough information with which to make those choices.

(b) Purposes.--The purposes of this subtitle are--

(1) to establish a public purpose, nonprofit, democratically controlled, membership association of financial services consumers;

(2) to give the Association a mandate to inform and represent financial services consumers, and to further the effective and vigorous oversight of covered persons;

(3) to establish democratic rules of governance for the Association; and

(4) to require any covered person to periodically include inserts concerning the Association within their statements and billing statements to financial services consumers.
